FOR SELECTIVELY INHIBITING VEGF

**DECLARATION OF PHILIP E. THORPE AND
ROLF A. BREKKEN IN ACCORDANCE WITH *IN RE KATZ***

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

WE, PHILIP E. THORPE AND ROLF A. BREKKEN, HEREBY DECLARE AS FOLLOWS:

1. We are the sole co-inventors of the subject matter disclosed and claimed in the captioned patent application.
2. We are listed with Xianming Huang and Steven W. King as co-authors of an article entitled " Vascular Endothelial Growth Factor as a Marker of Tumor Endothelium," published as *Cancer Research.*, 58(9):1952-1959, 1998.

3. Neither Xianming Huang nor Steven W. King made an inventive contribution to any of the subject matter claimed in the captioned patent application.
4. In regard to the information published in the foregoing *Cancer Research* article, the contribution of Xianming Huang was to clone, express and refold soluble VEGF and to prepare soluble Flk-1 for use as biological reagents in the studies. At about the time studies were conducted and published, Xianming Huang was employed in the laboratory of Dr. Thorpe at The University of Texas Southwestern Medical Center, Dallas, Texas. In performing any duties pertaining to the 2C3 antibody information published in the *Cancer Research* article, Xianming Huang worked entirely under our direction and control.
5. In regard to the information published in the foregoing *Cancer Research* article, the contribution of Steven W. King was to prepare the hybridoma producing the GV39 antibody, studied as one of the panel of antibodies in this article. In preparing the hybridoma producing the GV39 antibody, Steven W. King was employed in the laboratory of Dr. Thorpe at The University of Texas Southwestern Medical Center, Dallas, Texas. At about the time these studies were published, Steven W. King was employed at Techniclone Corporation, Tustin, California, the licensee of the captioned application. In performing any duties pertaining to the 2C3 antibody information published in the *Cancer Research* article, Steven W. King worked entirely under our direction and control.
6. The subject matter of the invention claimed in the captioned patent application is our invention, and neither Xianming Huang nor Steven W. King are co-inventors of any of the claimed subject matter.

7. We hereby declare that all statements made herein of our knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
